# Regulatory District Hospital Inspection Tool v1.3

Generic Ward\_1

Facility:
Date:

- **Tool Name:** Regulatory District Hospital Inspection tool v1.3 - Final
- **HEs Type:** Hospitals
- **Sector:** Public
- **Specialization:** District
- **Created By:** Health Standards Development and Training

## 17 Generic Ward\_1

### Domain 17.1 USER RIGHTS

#### Sub Domain 17.1.1 4 User information

**Standard 17.1.1.1 4(1)** The health establishment must ensure that users are provided with adequate information about the health care services available at the health establishment and information about accessing those services.

**Criterion 17.1.1.1.1 4(2)(a)(iii)** The health establishment must provide users with information relating to visiting hours where relevant.

**17.1.1.1.1.1** Visiting hours are indicated at the entrance to the unit.

**Assessment type:** Observation - **Risk rating:** Essential measure

Visiting hours must be displayed at the entrance of the unit. Not applicable: Where the visiting hours in the ward are the same as the general visiting hours displayed at the entrance to the health establishment.

Score	Comment

**Criterion 17.1.1.1.2 4(2)(a)(iv)** The health establishment must provide users with information relating to the complaints, compliments and suggestions management system.

**17.1.1.1.2.1** A complaints toolkit is available.

**Assessment type:** Observation - **Risk rating:** Essential measure

Verify whether the complaint forms, box and poster are available in the unit. Score 1 if compliant and 0 if not compliant.

Score	Comment	
Aspects	Score	Comment
1. Lockable complaints box is visibly placed in the unit.		
2. Complaints box is fixed to wall or a flat surface.		
3. Official complaint forms in at least two commonly spoken official languages are available next to box or there is an indication on the poster where to obtain the forms.		

4. Standardised poster describing process to follow to lodge a complaint is visibly displayed.		
5. Poster on complaints is available in at least two of the official languages commonly spoken in the area.		

**Domain 17.2 CLINICAL GOVERNANCE AND CLINICAL CARE**

**Sub Domain 17.2.1 6** User health records and management

**Standard 17.2.1.1 6(1)** The health establishment must ensure that health records of health care users are protected, managed and kept confidential in line with section 14, 15 and 17 of the Act.

**Criterion 17.2.1.1.1 6(2)(b)** The health establishment must ensure confidentiality of health records.

**17.2.1.1.1.1** Confidentiality of health records is maintained.

**Assessment type:** Observation - **Risk rating:** Essential measure

Observe how user health records are managed in the unit and determine whether unauthorised individuals would be able to access the information in the health records. This includes but not limited to the health records of users admitted to the unit, health records being used for clinical audits or other administrative purposes or health records outside the records storage area or room of the unit for any other reason. Such records should be kept in a manner that safeguards against unauthorised access to the content of the health record. User records may be placed at the foot end of the bed but must not be left open for people to be able to read them when a health care provider is not present.

Not applicable: Never

Score	Comment

**Standard 17.2.1.2 6(3)** The health establishment must create and maintain a system of health records of users in accordance with the requirements of section 13 of the Act.

**Criterion 17.2.1.2.1 6(4)(b)** The health establishment must record information relating to the examination and health care interventions of users.

**17.2.1.2.1.1** A clinical assessment and management plan for the user is recorded in the user health record.

**Assessment type:** Patient record audit - **Risk rating:** Vital measure

Request the records of three users who have been admitted in the unit for at least three days at the time of inspection and verify compliance with statutory requirements for record keeping. Score 1 if the aspect is compliant and 0 if not compliant.

**Standard 17.2.1.3 6(5)** The health establishment must have a formal process to be followed when obtaining informed consent from the user.

**Criterion 17.2.1.3.1 6 A documented procedure which describes the information to be collected and discussed during the process to obtain informed consent is implemented, in accordance with Chapter 2 of the National Health Act(Section 7).**

**17.2.1.3.1.1** Health care providers correctly complete forms used for informed consent.

**Assessment type:** Patient record audit - **Risk rating:** Non-negotiable measure

Request three health records of users admitted in the unit at the time of inspection who gave consent to operation or procedure or medical treatment. Examine the consent forms to verify whether they comply with the aspects listed below. Score 1 if the aspect is compliant and 0 if not compliant.

Score	Comment

Unit 1 Health record 1

Aspects	Score	Comment
1. Signatory providing consent was legally entitled to give informed consent. Explanatory note: As described in the National Health Act, this may be a person authorised by the court (e.g. a curator), or in order of priority, the user's spouse, partner, parent, grandparent, major child, or brother or sister. In an emergency, lifesaving procedures may be authorised by the health care provider, if "the treatment is limited to what is immediately necessary to save life or avoid significant deterioration in the user's health" HPCSA, Booklet 4. In the case of a child, the age to give consent is over 12 years in accordance with sections 129(2)(a)(b) and 129(3)(a)(b)(c).		
2. Exact nature of operation/procedure or treatment, including site and side, where relevant		
3. User's full names appear on consent form.		
4. Age of user		
5. Consent form is signed by user, his/her legal guardian (for minors) or person legally responsible for the user (adults with diminished mental capacity)		
6. Consent form is signed by health care provider who will perform procedure or delegated person.		
7. Consent form is dated.		
8. All entries on form are legible.  Reference: <a href="https://www.hpcs.co.za/Uploads/Professional_Practice/Ethics_Booklet.pdf">https://www.hpcs.co.za/Uploads/Professional_Practice/Ethics_Booklet.pdf</a>

**Sub Domain 17.2.2 7 Clinical management**

**Standard 17.2.2.1 7(1)** The health establishment must establish and maintain clinical management systems, structures and procedures that give effect to national policies and guidelines.

**Criterion 17.2.2.1.1 7(2)(a)** The health establishment must ensure that clinical policies and guidelines for priority health conditions issued by the national department are available and communicated to health care personnel.

**17.2.2.1.1.1** Health care personnel have been informed about clinical policies and guidelines

**Assessment type:** Document - **Risk rating:** Essential measure

Documented evidence that personnel have been informed about the clinical policies and guidelines must be available. This may include, but need not be limited to, distribution lists that include personnel signatures indicating that they have read and understood the document (which must be dated and signed), proof of attendance of meeting where policies and guidelines were discussed or similar evidence for electronic distribution. Score 1 if such evidence is available and 0 if not available.

Score	Comment	
Aspects	Score	Comment
1. Standard Treatment Guidelines and Essential Medicines List for Hospital Level (Adults) 2019 or latest		
2. National Tuberculosis Management Guidelines 2014 Or latest		

3. Guidelines for the Treatment of Malaria in South Africa 2018 or latest		
4. National Consolidated Guidelines for the Management of HIV in adults, adolescents, children and infants and prevention of mother-to-child transmission South African National Department of Health,2020 or latest		
5. National Infection Prevention and Control Strategic Framework 2020 or latest		
6. Practical Manual for Implementation of the National Infection Prevention and Control Strategic Framework 2020 or latest		
7. National clinical guidelines of PEP in occupational and nonoccupational exposures 2020 or latest		

**Criterion 17.2.2.1.2 7 Healthcare providers are informed on the health establishment and their specific responsibilities.**

**17.2.2.1.2.1** Health care personnel have been informed about the Standard Operating Procedures of the unit and health establishment.

**Assessment type:** Document - **Risk rating:** Essential measure

Documented evidence that personnel have been informed about the Standard Operating Procedures of the unit and health establishment must be available. This could include but is not limited to distribution lists which include personnel signatures to indicate they have read and understood the document (which must be dated and signed), proof of attendance at meetings where policies, guidelines ,standard operating procedures are discussed, or similar evidence for electronic distribution. Score 1 if such evidence is available and score 0 if it is not available.

---	--	--

**Standard 17.2.2.2 7(2)** (b) A health establishment must establish and maintain systems, structures and programmes to manage clinical risk.

**Criterion 17.2.2.1 7 The health establishment implements process to ensure environmental cleanliness.**

**17.2.2.1.1** All work completed is verified by the supervisor or delegated health care personnel.

**Assessment type:** Document - **Risk rating:** Essential measure

Daily inspections will ensure the cleanliness of the building. The person responsible for overseeing the cleaning service must inspect the building daily to confirm that cleaning has been carried out according to the schedule and that all areas attended to have been effectively cleaned. Monitoring tools (e.g. checklists/tick sheets) listing all cleaning tasks must be completed for each room or area.

Not applicable: Never

Score	Comment

**17.2.2.1.2** The unit is observed to be clean.

**Assessment type:** Observation - **Risk rating:** Vital measure

Inspector to observe general cleanliness of the unit including but not limited to whether the unit is free of dirt, dust and stains.

Score	Comment

**Criterion 17.2.2.2 7 The health establishment must report information on health care associated infections and notifiable diseases to the appropriate public health agencies.**

**17.2.2.2.1** National guidelines are followed for all notifiable medical conditions.

**Assessment type:** Document - **Risk rating:** Vital measure

Assess whether the health establishment complies with the requirements for recording and reporting of notifiable diseases listed below. The evidence may be obtained electronically or manually. Score 1 if compliant and 0 if not compliant.

Score	Comment

Aspects	Score	Comment
1. Notifiable medical conditions are to be recorded in the notification booklet or entered electronically into a web-based system. Explanatory note: The health establishment must be aware of the number of cases of different notifiable diseases presenting, to identify emerging trends as early as possible and report them to the relevant authority. Examine the register or electronic system to verify whether all diagnosed notifiable diseases have been recorded.		

<p>2. All notifiable diseases are reported using the prescribed form or electronically in a web-based system.</p>		
<p>3. Proof of submission of completed forms is available. Explanatory note: Inspect submissions from the previous six months. The health establishment must produce evidence that the report has been sent to the public agency. Reporting may be done via either a paper-based or an electronic notification. Form(s) may be sent via SMS, WhatsApp, email or fax. For a paper-based notification, complete the NMC Case Notification Form and email to NMCsurveillanceReport@nicd.ac.za, or fax to 086 639 1638, or send via SMS or WhatsApp to the NMC hotline 072 621 3805. Send a copy to the NMC focal person at subdistrict/district level (details given on the NMC Notification booklet cover page). The NMC focal person at health facility or sub-district level must ensure that the forms are captured electronically or via the NMC app; Download the NMC app from <a href="http://www.nicd.ac.za/notifiable-medical-conditions/">http://www.nicd.ac.za/notifiable-medical-conditions/</a> or via a cell phone app store.</p>		

**Criterion 17.2.2.2.3 7 Implementation of standard operating procedures must be monitored.**

**17.2.2.2.3.1** The storage of sterile packs ensures the integrity of materials.

**Assessment type:** Observation - **Risk rating:** Essential measure

The manner in which sterile packs are stored must prevent physical damage to packages, avoid exposure of packages to moisture. Packages should not be stored in a manner that will crush, bend, puncture, or compress them. Therefore, packs should not be wet or have water damage, they should be intact (not opened or torn). Not applicable: Never

Score	Comment

**Criterion 17.2.2.2.4 7 The management of used and soiled linen must meet infection prevention and control requirements.**

**17.2.2.2.4.1** The ward has a designated, access-controlled area for the storage of dirty linen.

**Assessment type:** Observation - **Risk rating:** Essential measure

The area used to store dirty linen must have a door, which is kept shut. Not applicable: Never

Score	Comment

**17.2.2.2.4.2** Dirty linen trolleys are not overflowing.

**Assessment type:** Observation - **Risk rating:** Essential measure

Linen must be collected frequently enough to avoid excessive accumulation of dirty linen. Not applicable: Never

Score	Comment

**Criterion 17.2.2.2.5 7 The health establishment must have a functional quality management system**

**17.2.2.2.5.1** Quality improvement plans are developed by health care personnel.

**Assessment type:** Document - **Risk rating:** Vital measure

Request the quality improvement plan of the unit from the previous six months. Verify whether the aspects listed below are documented. Score if aspect is documented and 0 if not. NB: Score not applicable where no gaps have been identified.

Score	Comment	
Aspects	Score	Comment
1. Gaps identified		
2. Activities required or implemented to address gaps		
3. Healthcare personnel responsible		
4. Time frames		

**17.2.2.2.5.2** Corrective action has been taken to improve the quality of service provided where gaps are identified.

**Assessment type:** Document - **Risk rating:** Vital measure

Evidence must be available that the action specified in the quality improvement plan was implemented. Not applicable: Where there were no gaps identified.

Score	Comment

**Criterion 17.2.2.2.6 7 Communication systems must be available and functional to facilitate adequate user care, and safety of user and health care personnel.**

**17.2.2.2.6.1** Functional, accessible telephones are available in the ward

**Assessment type:** Observation - **Risk rating:** Essential measure

Maintaining and sustaining communication is essential for user safety. Telephones must be functional and available in the ward. Not applicable: Never

Score	Comment

**Criterion 17.2.2.2.7 7 Standardised procedures to identify and mitigate clinical risk must be implemented during the care of vulnerable users.**

**17.2.2.2.7.1** Risk assessments are conducted for frail or aged users to identify users at high risk of falling or developing pressure sores.

**Assessment type:** Patient record audit - **Risk rating:** Vital measure

Select three health records of frail and/or aged users admitted to the unit at the time of inspection. Verify whether formal risk assessments, including but not limited to Waterlow or Norton scale to determine the user’s risk for developing pressure sores, and the Morse fall scale to determine the user’s risk of falling were completed on admission. Score 1 if the aspect is compliant and 0 if not compliant.

**Criterion 17.2.3.1.2 8(2)(b) The health establishment must provide isolation units or cubicles where users with contagious infections can be accommodated.**

**17.2.3.1.2.1** Isolation room meets the requirements listed below.

**Assessment type:** Observation - **Risk rating:** Vital measure

Inspect the isolation rooms to verify whether they contain the aspects listed below. Score 1 if the aspect is present and 0 if not present. Score NA if, at the time of the inspection, no users requiring isolation have been admitted.

Score	Comment

Aspects	Score	Comment
<b>General requirements to be inspected at all times.</b>		
1. Single room with door that closes. Explanatory note: In the case of an outbreak, multiple users may be accommodated in the same room, as long as the room is used exclusively to care for users with the outbreak disease, i.e. "Cohorting" of patients. Sporadic, individual cases must be nursed in a room that accommodates a single user only.		
2. Rooms used for infections requiring airborne precautions have adequate ventilation. Explanatory note: This will be a minimum of a window that opens, but preferably negative pressure ventilation. Rooms used for users with viral haemorrhagic fevers have ventilation ensuring at least 6-12 air changes per hour.		
3. Hand wash basin with elbow-operated taps		
4. Bin with a close-fitting lid		
5. Separate toilet facilities. Explanatory note: This may be a dedicated commode, or urinal and bedpan.		
<b>Requirement to be inspected only if there is a user isolated in the room.</b>		
6. Alcohol based hand rub inside room.		
7. Disinfectant outside of room to disinfect surfaces		
8. Disposable gloves inside room		
9. Bio-hazardous tape for labelling of specimens prior to transporting		
10. Poster/Signs affixed outside the room. Explanatory note: This will include the different types of transmission precautions i.e. airborne, contact or droplet and posters regarding visiting restrictions.		
11. Alcohol based hand rub outside room.		
12. People traffic in and out of room to be controlled (i.e. limited number of visitors and personnel)		

13. Appropriate measures for discarding infected linen.		
14. Appropriate measures for disinfection of equipment		

**17.2.3.1.2.2** Isolation rooms are inspected by the infection prevention and control team following terminal cleaning.

**Assessment type:** Document - **Risk rating:** Vital measure

The infection prevention and control team must confirm that terminal cleaning has been performed satisfactorily prior to the admission of another user into the room used for isolation. Evidence of this inspection must be available in the ward. Not applicable: Where no users requiring isolation have been admitted in the previous 12 months.

Score	Comment

**Criterion 17.2.3.1.3 8(2)(c) The health establishment must ensure there is clean linen to meet the needs of users.**

**17.2.3.1.3.1** The ward manager has determined the linen requirements for the ward.

**Assessment type:** Document - **Risk rating:** Essential measure

It is necessary to determine the linen requirements for the ward, to ensure sufficient linen is available, i.e. the number of linen items required to ensure that all users have clean linen and are warm enough during their admission. It is also necessary to determine how many linen items must be available in the linen storage area for routine linen changes, and to respond to episodes of dirtying or soiling of linen. This may change with the type of users admitted to the ward, including, but not limited to, users admitted with continence issues or with actively bleeding or suppurating wounds. Not applicable: Never

Score	Comment

**17.2.3.1.3.1** Linen rooms or storage cupboards are adequately stocked and well organised.

**Assessment type:** Observation - **Risk rating:** Essential measure

Inspect the area where linen is stored to determine whether the aspects listed below are compliant. Score 1 if the aspect is compliant and 0 if not compliant. Score 0 if the ward does not have a designated area with a door that can be kept closed.

Score	Comment	
Aspects	Score	Comment
1. Designated area for storage of linen		
2. Area is locked.		
3. Linen is stored on shelves.		
4. Area is well organised.		
5. Clean linen is available		

**Criterion 17.2.3.1.4 8(2)(d) The health establishment must ensure that health care personnel are protected from acquiring infections through the use of personal protective equipment and prophylactic immunisations.**

**17.2.3.1.4.1** Personal protective equipment is worn.

**Assessment type:** Observation - **Risk rating:** Vital measure

Using the checklist below, verify whether protective clothing and equipment are worn. Score 1 if the items are worn and 0 if not worn. Score NA where, at the time of the inspection, personnel are not in a situation in which they are required to wear protective clothing.

Score	Comment

Unit 1 Clinical area: Worn

3. Healthcare personnel 3		

**Criterion 17.4.1.1.2 20 The health establishment must have a disaster management plan in place, which is communicated to health care personnel and tested annually.**

**17.4.1.1.2.1** The actions to be taken when the disaster management response is activated are visibly displayed.

**Assessment type:** Observation - **Risk rating:** Essential measure

The actions to be taken by allocated individuals in the event of a disaster must be clearly visible for easy reference during a disaster. This may be displayed in any manner relevant to the size and complexity of the health establishment, including, but not limited to, a single summary sheet of actions to be taken, action cards to be retrieved by allocated individuals to remind them of the tasks for which they are responsible, or any other method chosen by the health establishment. Not applicable: Never

**Domain 17.5 FACILITIES AND INFRASTRUCTURE**

**Sub Domain 17.5.2 14** Management of buildings and grounds

**Standard 17.5.2.1 14(1)** The health establishment and their grounds must meet the requirements of the building regulations.

**Criterion 17.5.2.1.1 14(2)(b)** The health establishment must as appropriate for the type of buildings and grounds of the establishment have a maintenance plan for buildings and the grounds.

**17.5.2.1.1.1** No obvious safety hazards are observed during the visit.

**Assessment type:** Observation - **Risk rating:** Vital measure

Inspect the surroundings for maintenance-related safety hazards in the unit, including but not limited to loose electrical wiring, collapsing ceiling or roof, collapsing doors or any other type of safety hazards that represent a risk to the health and safety of personnel, users and visitors. Not applicable:

Never

**Criterion 17.5.2.1.2 14(2)(d) The health establishment must as appropriate for the type of buildings and grounds of the establishment have ventilation systems that maintain the inflow of fresh air, temperature, humidity and purity of the air within specified limits set for different service areas such as theatres, kitchen and isolation units.**

**17.5.2.1.2.1** The unit has natural ventilation or functional mechanical ventilation.

**Assessment type:** Observation - **Risk rating:** Essential measure

The national building regulations stipulate that satisfactory ventilation is only provided by forcing outdoor air into a space mechanically or passively through either ducting or apertures open to the outside, including, but not limited to, windows or ventilation grilles. Verify whether the ward has passive ventilation (windows, doors that can be opened and ventilation grilles) or functional mechanical ventilation (i.e. a ducting system). Not applicable: Never

**Sub Domain 17.5.3 15** Engineering services

**Standard 17.5.3.1 15(1)** The health establishment must ensure that engineering services are in place.

**Criterion 17.5.3.1.1 15(2) The health establishment must have 24-hour electrical power, lighting, medical gas, water supply and sewerage disposal system.**

**17.5.3.1.1.1** The ward has a functional system to supply piped oxygen to clinical areas.

**Assessment type:** Observation - **Risk rating:** Non-negotiable measure

This is to ensure that users have access to piped oxygen when required. Verify whether piped oxygen is available and functional in clinical areas in the ward. Not applicable: Never

Score	Comment

**17.5.3.1.1.2** A functional system is in place to supply piped suction to clinical areas.

**Assessment type:** Observation - **Risk rating:** Vital measure

This is to ensure that users have access to piped suction when required. Verify whether piped suction is available and functional in clinical areas in the ward. Not applicable: Never

### Official Sign-Off

The National Health Act, 2003 (Act No. 61 of 2003) provides for quality requirements and standards in respect of health services provided by health establishments to the public. The main objective is to promote and protect the health and safety of the users of health services and contribute to improved outcomes and improved population health.

To achieve this mandate standardised inspection tools aligned to Norms and Standards Regulations applicable to different categories of health establishments promulgated by the Minister of Health in 2018 have been developed for District Hospitals.

### Acknowledgements

There are many people who have contributed to the development of the Regulatory District Hospital Inspection Tools Version 1.3. The Office of Health Standards Compliance wishes to extend most heartfelt acknowledgement and gratitude to the following:

- The WHO technical team for providing guidance on the very first draft inspection tools database
- Health Standards Development and Training unit team (Dr Grace Labadarios, Mr Jabu Nkambule, Ms Florina Mokoena, Ms Mosehle Matlala, Ms Busisiwe Mashinini} for the development of the District Hospital Inspection tools.
- The internal OHSC teams (Compliance Inspectorate, Certification and Enforcement, Complaints and Assessment, Complaints and Investigation, Systems, Data Analysis and Research}, for their contribution during the development of the District Hospital Inspection tools and (Information Technology and Communication and Stakeholder Relations} for providing support.
- National Department of Health, Mr Bennet Asia, Dr Shaidah Asmall for reviewing and commenting on the inspection tools.
- Provincial Department of Health personnel, Quality Assurance Managers, District Managers, Programme Managers, Operational Managers for their valuable feedback
- The Certification and Enforcement Committee of the OHSC Board for reviewing the tools and for recommending to the Board for approval.

**It is hereby certified that the Regulatory District Hospital Inspection tools version 1.3 was developed by the Office of Health Standards Compliance.**
