DEFINITIONS

“Board”	means the Board of the Office of Health Standards Compliance appointed in terms of Section 79A of the Act;
“Chief Executive Officer”	means the person appointed as Chief Executive Officer of the Office in terms of Section 79H (1) of the Act;
“Constitution”	means the Constitution of the Republic of South Africa, Act 108 of 1996;
“Early Warning System”	means the surveillance systems that collect information of serious breaches of norms and standards that prompt interventions by the health establishment, the Office or relevant authority;
“Health Establishment”	means the whole or part of a public or private institution, facility, building or place, whether for profit or not, that is operated or designed to provide inpatient or outpatient treatment, diagnostic or therapeutic interventions, nursing, rehabilitative, palliative, convalescent, preventative or other health services;
“Inspector”	means a person appointed as an inspector in terms of Section 80(2) of the Act;
“Minister”	means the Minister responsible for Health;
“Norms and Standards”	means the norms and standards prescribed by the Minister in terms of Section 90(1)(b) and (c) of the Act;
“Office”	means the Office of Health Standards Compliance established by Section 77(1) of the Act;
“Regulations”	means the Procedural Regulations Pertaining to the Functioning of the Office of Health Standards Compliance and Handling of Complaints by the Ombud;
“The Act”	means the National Health Act, 2003 (Act No. 61 of 2003); and
“User”	means the person receiving treatment in a health establishment.,

1. INTRODUCTION

In terms of section 79(1)(f) of the National Health Amendment Act (NHAA) 12 of 2013, (“the Act”) the Office of Health Standards Compliance (OHSC) must publish information relating to norms and standards through the media and where appropriate, to specific communities.

Additionally, the Procedural Regulation 31(1)(b) states that the OHSC must every six months, publish on its public website and in any other appropriate publication platform, a report which covers all the:

- (i) inspections conducted, with the names and location of the health establishments;
- (ii) compliance certificates issued, with the names and location of health establishments;
- (iii) hearings conducted, with the names and location of health establishments and the outcome of the hearings;
- (iv) the recommendations made to the relevant authorities in terms of section 79(1)(e) which states that the Office must identify areas and make recommendations for interventions by a national or provincial department of health, a health department of a municipality or health establishment where it is necessary, to ensure compliance with norms and standards and
- (v) complaints received and resolved by the Ombud, by category.

2. LEGISLATIVE FRAMEWORK AND POLICY MANDATE

- The National Health Act, Act 61 of 2003, as amended.
- The National Core Standards (NCS)
- Batho Pele and the Patient’s Rights Charter
- National Health Insurance (NHI) Bill, 2019
- National Development Plan (NDP)
- The norms and standards regulations applicable to different categories of health establishments
- Procedural Regulations pertaining to the Functioning of the Office of Health Standards Compliance and Handling of Complaints by the Ombud

3. INSPECTIONS CONDUCTED, WITH THE NAMES AND LOCATION OF THE HEALTH ESTABLISHMENTS

This bi-annual report (April 2024 – September 2024) describes the names and locations of inspections conducted in Quarter 1 and 2 of FY 2024/2025.

Two types of Inspections were conducted in the public and private sector during this period namely: Routine and Re-inspections. Routine inspections are inspections conducted for the first time in a health establishment using the regulated Norms and Standards. Re-inspections are conducted to assess if the previously identified breaches in the norms and standards regulations have been remedied. During the reporting period, re-inspections were conducted in the in both private and public sector.

A total of 559 inspections (Routine-public/private and re-inspections-public/private) were conducted during Q1 and Q2 of FY 2024/2025. The breakdown of these inspections is depicted below in Table 1 (public sector routine inspections), Table 10 (public sector re-inspections), Table 20 (private sector routine inspections) and Table 22 (private sector re-inspections). The total number of routine inspections conducted in both private and public sector was 386 and the total number of re-inspections conducted in both sectors was 173.

PUBLIC

ROUTINE INSPECTIONS

OHSC

Office of Health Standards Compliance
Ensuring quality and safety in health care

3.1 Public Sector Routine inspections conducted per province during quarter 1 and 2 of financial year 2024/25

A total of 319 routine inspections were conducted across seven (7) provinces in the public sector. These inspections were conducted in three (3) different levels of care i.e., Clinics, Community Health Centres (CHCs) and Hospitals.

Table 1: Public sector inspections conducted per province during quarter 1 and 2 of financial year 2024/25

PROVINCE	NUMBER OF HE INSPECTED				TOTAL Per Province
	CLINICS	CHCs	HOSPITALS		
			District	Regional	
Eastern Cape	67	6	5	-	78
Free State	9	-	4	1	14

RE-INSPECTIONS

OHSC

Office of Health Standards Compliance
Ensuring quality and safety in health care

3.2 Public sector Re-inspections conducted per province during quarters 1 and 2 of the financial year 2024/25

A total of 169 re-inspections were conducted in the public health sector across nine (9) provinces. The selected health establishments were first inspected as routine inspections in the FY 2019/2020 – 2023/24 and found to be Non-Compliant with Norms and Standards regulations. Re-inspections were conducted in Clinics, Community Health Centres (CHC) and Hospitals during this reporting period. These HEs were granted an opportunity to remedy breaches through the issuance of a Compliance Notice issued after the inspection findings, which stipulated the nature and extent of non-conformance with the Norms and Standards. Timeframes were provided to health establishments within which the breaches were to be remedied. Re-inspections were scheduled after the given timeframes had lapsed. Re-inspections were conducted to verify whether all the areas of non-conformances were addressed. The distribution of re-inspected health establishments by province is depicted in Table 10 below.

Table 10: Public sector re-inspections conducted per province during quarters 1 and 2 of FY 2024/25.

PROVINCE	NUMBER OF HE RE-INSPECTED			TOTAL PER PROVINCE

SECTION B

CERTIFICATION & ENFORCEMENT

Office of Health Standards Compliance
Ensuring quality and safety in health care

Official Sign-off

This report forms part of the OHSC Bi-annual report for quarter ONE (1) and TWO (2) for the financial year 2024/25 on its certification and enforcement function as required in terms of Regulation 31 of the **Procedural Regulations Pertaining to the Functioning of the Office of Health Standards Compliance and Handling of Complaints by the Ombud, 2016**.

- It reflects the process and applicable procedures followed by the OHSC in certification of compliant health establishments. It indicates the number and names of such health establishments. It also provides detailed information on the actions taken to enforce compliance of health establishments with regulated norms and standards.
- It takes into account all the applicable legislation and policies which guides the OHSC in the execution of its certification and enforcement functions.

DR. LESIBA J RASHOKENG

OFFICE OF HEALTH STANDARDS COMPLIANCE

DATE: 07/10/2024

DR. SIPHIWE MNDAWENI

CHIEF EXECUTIVE OFFICER

OFFICE OF HEALTH STANDARDS COMPLIANCE

DATE: 08/10/2024

DEFINITIONS

“The Act” refers to the National Health Act, 2003 (Act No. 61 of 2003 as amended).

“Board” refers to the Board of the Office of Health Standards Compliance appointed in terms of Section 79A of the Act.

“Chief Executive Officer” refer to the person appointed as Chief Executive Officer of the Office in terms of Section 79H (1) of the Act.

“Constitution” refers to the Constitution of the Republic of South Africa, Act 108 of 1996.

“Certificate of compliance” refers to a certificate referred to in Regulation 18(2), issued to the health establishment by the Office.

“Compliance Notice” refers to a notice referred to in Regulation 21(1), issued to the health establishment by an inspector.

“Early Warning System” refers to the surveillance system that collects information on serious breaches of norms and standards that prompt interventions by the health establishment, the Office or relevant authority.

“Enforcement” is a legal framework for the application of possible action prescribed in the regulations that the OHSC can take against health establishments for failure to comply with regulated norms and standards.

“Health Establishment” means the whole or part of a public or private institution, facility, building or place, whether for profit or not, that is operated or designed to provide inpatient or outpatient treatment, diagnostic or therapeutic interventions, nursing, rehabilitative, palliative, convalescent, preventative or other health services.

“Inspector” refers to a person appointed as an inspector in terms of Section 80(2) of the Act.

“Minister” refers to the Minister responsible for health in South Africa.

“**NHI**” refers to the National Health Insurance Fund envisaged in section 9 of the National Health Insurance Bill, 2019.

“**Norms and Standards**” refers to the norms and standards prescribed by the Minister in terms of Section 90(1)(b) and (c) of the Act.

“**Office**” refers to the Office of Health Standards Compliance established by Section 77(1) of the Act.

“**Procedural Regulations**” refers to the Procedural Regulations Pertaining to the Functioning of the Office of Health Standards Compliance and Handling of Complaints by the Ombud.

“**Risk-Based Inspection**” is an inspection carried out by the OHSC to verify the existence of risk at a health establishment and to ascertain the nature, extent, and gravity of the breaches of the norms and standards as a result of such risk.

1. INTRODUCTION

Section 79(1)(b) of the National Health Act, 2003 (as amended) mandates the OHSC to inspect and certify health establishments as compliant or non-compliant with the prescribed norms and standards and where appropriate and necessary, withdraw such certification. On the other hand, regulation 23(1) of the Procedural Regulations provides that the Office may take enforcement action against persons in charge of non-compliant health establishments for failure to comply with a compliance notice issued by the inspectors to such health establishments. This bi-annual report provides information on the number of certificates of compliance issued to health establishments and the number and type of enforcement actions taken against health establishments found to be non-compliant with the regulated norms and standards. This report covers the first and second quarter of the 2024/25 financial year and is issued in accordance with Regulation 31 (1) (b) of the Procedural Regulations.

2. APPLICABLE LEGISLATIONS

The following legislation and policy documents serve as key consideration in the execution of the certification and enforcement function of the OHSC.

- The Constitution of the Republic of South Africa, Act 108 of 1996.
- The National Health Act, 2003 (Act No. 61 of 2003), as amended.
- The Promotion of Administrative Justice Act 3 of 2000
- Procedural Regulations Pertaining to the Functioning of the Office of Health Standards Compliance and Handling of Complaints by the Ombud, 2016.
- Norms and Standards Regulations applicable to different categories of health establishments, 2016.
- National Health Insurance, Act 20 of 2023
- The OHSC`s Enforcement Policy published in government gazette in 2016.

3. CERTIFICATION OF HEALTH ESTABLISHMENTS

3.1 Certification follows inspection of health establishments

Certification of compliant health establishments follows as an outcome of a rigorous the inspection process which comprise of the following stages:

- Scheduling of inspections for both routine and risk based.
- Notification of, and sharing inspection-related information with persons in charge of health establishments schedules for inspection
- Conduction of on-site inspections using the approved electronic OHSC`s inspection tools designed and applicable to different categories of health establishments. The tool is made up of risk-rated measures to assess compliance with regulated standards.
- Electronic configuration of the inspection information using the Compliance Status Framework (CSF) which is basically a framework used by the OHSC to determine whether a health establishment can be certified as compliant against the norms and standards regulations. The framework applies a grading method to identify and categorise the level of performance (compliance) of a health establishment against the norms and standards regulations into specified categories. There are four grading categories as indicated in the following example (Table 1).

CSF GRADING MODEL	
Grading	Risk Ratings
Excellent	<ul style="list-style-type: none"> ▪ V ≥ 80% ▪ E ≥ 70%
Good	<ul style="list-style-type: none"> ▪ V – 70-79% ▪ E – 60-69%
Satisfactory	<ul style="list-style-type: none"> ▪ V – 60%-69 ▪ E – 50-59%
Unsatisfactory	<ul style="list-style-type: none"> ▪ V < 60% ▪ E < 50%

- Intra and Inter-team review of reports by different inspection teams under the supervision of inspection team leader to verify and ascertain the correctness and accuracy of the information appearing on each individual report.
- Release of preliminary inspection reports to persons in charge of the health establishments and their nominated co-workers who are granted permission to access the reports online. This is done to grant the health establishments an opportunity to consider and comment on the compliance outcome indicated on the reports as well as to comment on the findings of the inspectors. The health establishment is granted 20 working days to do so, and the electronic system will automatically restrict them accessing the reports after the 20 days.
- Pre-final review and release of the final reports to the health establishments together with the inspector’s recommendation to Certification and Enforcement unit. If a health establishment is found to be compliant, the inspector recommends certification. Conversely, for non-compliant health establishments, enforcement action is

recommended. Health establishments are considered for enforcement action if they remain non-compliant after undergoing a re-inspection.

- This process ensures thorough review, timely feedback, and appropriate action based on compliance status.

3.2 Certification as an independent process

Following the inspectors' recommendation, Certification and Enforcement unit independently considered such recommendations based on the information appearing on the electronic inspection system, and the documentary evidence to confirm the inspectors' compliance with the OHSC's inspection procedure. This process is guided by certification and enforcement framework which contains a decision-making matrix that officials in the unit are expected to follow to arrive at their decision. Based on valid and sufficient reasons, Certification and Enforcement unit may decline the recommendations of inspector and in doing so, should advise inspectors accordingly. In the absence of any disputes, the unit must in accordance with Procedural Regulation 18, issued certificates of compliance to compliant health establishments within fifteen (15) working days after receiving a recommendation from the inspector. A Certificate of Compliance is valid for a period of four (4) years and is subject to renewal. Health establishments are further required in terms of Regulation 19 of to apply to the OHSC for renewal of their certificates of compliance within a period of not more than six months before the expiry of the compliance certificate. Should a health establishment that was issued with a compliance certificate be inspected for any other reason, such as a risk-based inspection and is issued with a compliance notice for breach of norms and standards, its certificate of compliance may be suspended until it addressed all identified areas of non-compliance.

3.3 Certification of health establishments during the reporting period

The OHSC commenced with the certification of health establishments in the 2020/21 financial year, and to date, a total of 1907 certificates of compliance have been issued. The certificates of compliance were issued to health establishments from different levels of care in both private and public sector. The graph (Figure 1) below indicates the certificates issued by different health establishment levels of care during the reporting period.

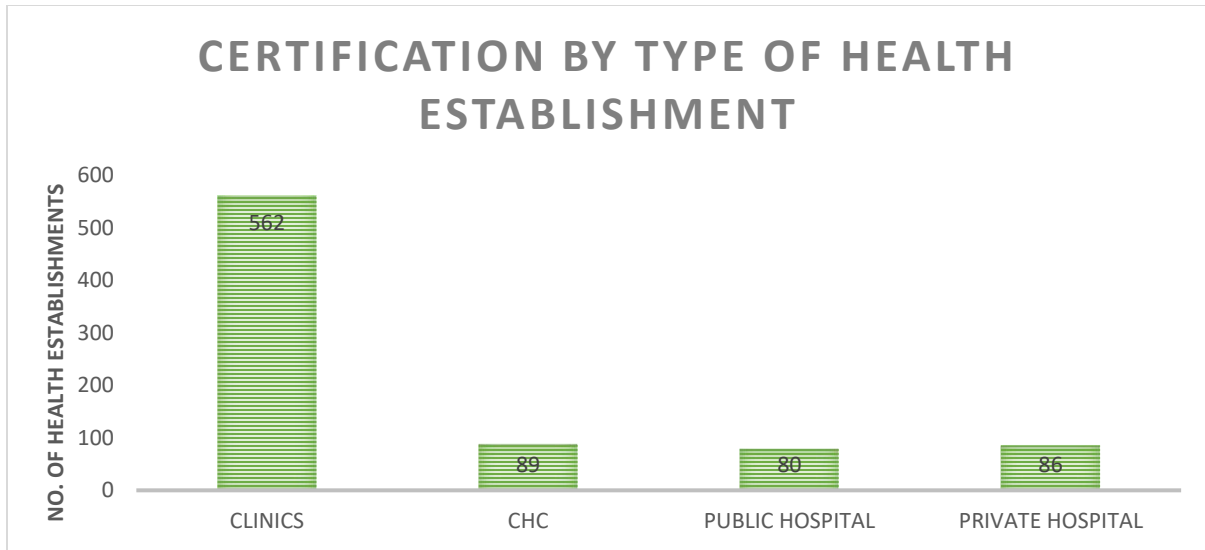

Figure 1: Number of certified health establishments by level of care, FY 2024/25 quarters 1 and 2

Between the period 01/04/2024 and 30/09/2024, the OHSC certified 817 health establishments as indicated in the table 2 below.

Table 2: Number of certified health establishments per province in 2024/25 quarters 1 and 2

PROVINCE	CLINICS	CHCs	PUBLIC HOSPITALS	PRIVATE HOSPITALS	TOTAL
EASTERN CAPE	120	19	14	2	155
GAUTENG	82	10	8	33	133
LIMPOPO	95	9	18	4	126
NORTHWEST	21	6	8	5	40
WESTERN CAPE	50	5	2	9	66
FREE STATE	24	1	2	6	33
KWAZULU NATAL	131	7	18	21	177
MPUMALANGA	38	31	10	6	85
NORTHERN CAPE	1	1	0	0	2
TOTAL	562	89	80	86	817

The number of certificates issued by grading in different provinces is reflected in the graph below (Figure 2).

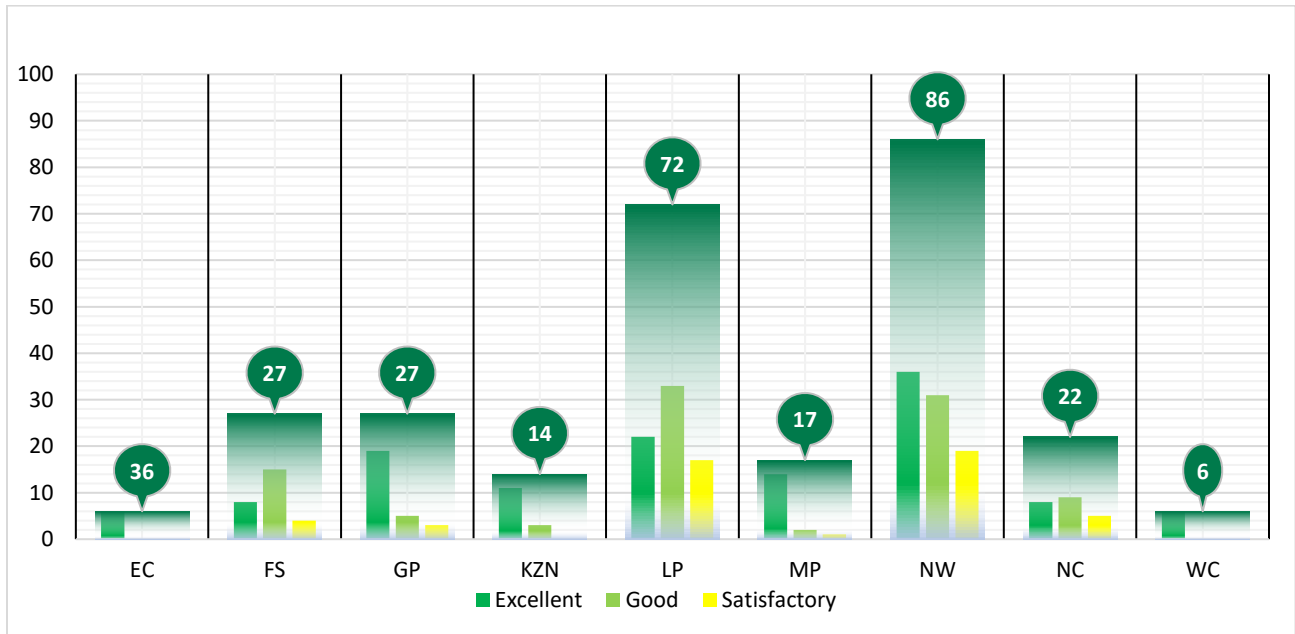

Figure 2: Number of certificates issued by grading

3.4 Certification of health establishments for accreditation by the National Health Insurance (NHI)

The Office of Health Standards Compliance (OHSC) is mandated to ensure that health establishments in South Africa comply with national health standards, as set out in the National Health Act. The primary role of the OHSC is to monitor, inspect, and enforce regulations that safeguard the quality of healthcare services across both public and private facilities. This mandate directly aligns with the implementation of the National Health Insurance (NHI), which requires health establishments to be accredited based on their adherence to these standards. For health establishments to qualify for NHI accreditation, they must demonstrate full compliance with the norms and standards set by the OHSC, ensuring that they provide safe, consistent, high-quality care to patients. The OHSC's certification process plays a critical role in the NHI framework, as only compliant and certified establishments will be eligible to participate in the NHI system, promoting universal access to quality healthcare in South Africa.

ANNEXURE A attached hereto, provides a list and details of health establishments issued with certificates of compliance in quarter 1 and 2 of the 2024/25 financial year. The list shows a significant

increase in certified health establishments over the reporting period (817 certified, 2024/25 Q1 and Q2), from the number certified in the previous period (227 certified, 2023/24 Q3 and Q4)

4. ENFORCEMENT POWERS AND FUNCTIONS OF THE OHSC

The OHSC is empowered by the Act and the Procedural Regulations to take enforcement action against non-compliant health establishments. At the same time, legislation implores the Office to apply a progressive approach in instituting enforcement action after considering the nature and severity of non-compliance with the norms and standards, consequences thereof, the compliance history of the health establishment, frequency of transgressions in relation to the norms and standards, any offences by the health establishment in terms of section 89(1) of the Act, and any mitigating or aggravating factors. The OHSC has put several measures in place to ensure that it exercises its powers and functions in a manner that achieves this important principle without stifling adequate application of enforcement actions. These measures include the following.

4.1 Published the enforcement policy in a government gazette in 2020

The OHSC has developed and published its enforcement policy in line with Regulation 22 of the Procedural Regulations. The policy provides instructive guidance to the administrative processes of the OHSC for execution of its compliance enforcement function.

4.2 The effects of pre-enforcement consultative sessions

To enhance the implementation of the OHSC's Enforcement Policy, a pre-enforcement consultation process was introduced, engaging district health authorities and CEOs of public and private hospitals scheduled for additional inspections after initial non-compliance findings. Launched in the fourth quarter of 2023/2024, this process is set to continue into the next reporting period, with an increased focus on primary healthcare facilities (clinics), which had the highest number of enforcement actions during this reporting period. These pre-enforcement sessions have proven invaluable, as they raise awareness among health establishments of the OHSC's compliance enforcement powers and legal responsibilities. This awareness has driven significant improvements, as facilities better prepared for re-inspections and addressed the non-compliant areas identified in their initial compliance notices. The impact is clear: all targeted hospitals achieved a 100% grading on non-negotiable measures (NNMs), ensuring they had the essential equipment and medications needed for life-saving interventions in emergencies.

4.3 Enforcement action taken against non-compliant health establishments in quarters 1 and 2 (2024/25)

Between 01 April 2024 and 30 September 2024, OHSC inspectors recommended enforcement actions against several health establishments due to non-compliance with regulated norms and standards. Consequently, Written Warnings were issued to all non-compliant facilities. This enforcement action, as outlined in Regulation 23, is directed at persons in charge of health establishments, who fail to address the breaches specified in the compliance notice issued by inspectors. Enforcement actions are recommended for establishments that remain non-compliant after undergoing additional inspections (re-inspections). These additional inspections, mandated by the Procedural Regulations, assess whether health establishments have resolved the identified breaches from routine inspections.

4.5 Other enforcement action prescribed by law

The National Health Act and Procedural Regulations outline various enforcement actions available to the OHSC to ensure that health establishments comply with regulated norms and standards. However, in alignment with its progressive approach to enforcement, the OHSC Enforcement Committee opted to provide health establishments an additional opportunity to present mitigating factors through pre-enforcement consultation sessions. As a result, no formal hearings were held during this reporting period regarding the revocation of compliance certification, nor were any recommendations made to relevant authorities. These enforcement measures will be applied against health establishments that are found to be persistently non-compliant to the norms and standards, as deemed necessary in future. ANNEXURE B lists all health establishments subject to enforcement action by the OHSC during this reporting period.

5. CONCLUSION

The OHSC recorded a notable increase in the rate of certification during this reporting period compared to the previous one, reflecting a corresponding rise in compliant health establishments. The introduction of pre-enforcement consultation sessions, specifically aimed at health establishments scheduled for additional inspections, has proven instrumental in boosting compliance rates. During these sessions, health establishments presented on the remedial actions they had implemented to address identified breaches in norms and standards, discussed any challenges to achieve full compliance, and outlined their preparedness for re-inspection. The support from the national Department of Health's National Quality Improvement Plan directorate has been invaluable, with Quality Improvement mentors providing critical

guidance to health establishments and Quality Improvement Coordinators across provinces and districts. This collaboration between the OHSC and the directorate is essential to sustaining quality improvements in healthcare establishments.

6. ANNEXURE A: A LIST AND DETAILS OF HEALTH ESTABLISHMENTS ISSUED WITH CERTIFICATES OF COMPLIANCE IN QUARTER 1 AND 2 OF THE 2024/25 FINANCIAL YEAR.

EASTERN CAPE PROVINCE (155)					
No	Health Establishment	Type	Grading	Certification Date	Certificate Number
1	Rietbron Clinic	Clinic	Satisfactory	2024/04/10	OHSC - 001201
