3. INSPECTIONS CONDUCTED, WITH THE NAMES AND LOCATION OF THE HEALTH ESTABLISHMENTS

This report outlines the number of inspections conducted over the six months period between 1 July 2021 and 31 December 2021 in the 2021/2022 financial year. In this reporting period, two types of inspections were conducted, namely: routine inspections and re-inspections. A total of 308 routine inspections and 180 re-inspections were conducted across all nine provinces. The distribution of health establishments (HEs), as well as the location of each HE inspected per provinces, district, and sub-district is listed in the tables below.

ROUTINE INSPECTIONS

1.1 Provincial breakdown of routine inspections conducted during the second and third quarter of the 2020/21 financial year

The number of health establishments inspected per province is informed by the number of health establishments in that province, as well as the proportion of these that has not yet been inspected by the OHSC. The Eastern Cape has the highest number of health establishments compared to others; therefore, the province had the highest number of inspections over the reporting period. The distribution of routine inspections conducted per province during the period between 1 July 2021 and 31 December is depicted in Table 1 below:

Table 1: Routine inspections conducted per province during 1 July and 31 December 2021

RE-INSPECTIONS

1.2. Breakdown of re-inspections conducted per province during the second and third quarter of the 2021/2022 financial year

During the reporting period from 1st July 2021 to 31st 2021, the OHSC conducted a total of 180 re-inspections in terms of section 82 (1) of the Act in the public health sector across all nine provinces. These health establishments were first inspected as routine inspections in the 2019/2020 financial year and were found to be Non-Compliant with Norms and Standards Regulations. The health establishments were granted an opportunity to remedy the deficiencies before the re-inspections were conducted, to check if all the areas for non-conformance were remedied. The distribution of re-inspected health establishments by province is depicted in Table 11 below:

Table 11: Re-inspections Conducted Per Province
